## Henfield Medical Practice Monthly Prescriptions Policy

- **It is the policy of this practise to issue 28 days of repeat medication in keeping with NHS good practise guidelines.**

The department of health states that a 28 day repeat prescribing interval is recognised as making the best possible balance between patient convenience, good medical practice and minimal drug wastage.

- **This will reduce the amount of medication that is currently wasted**

As a practise, we are charged with managing NHS resources in the most efficient way. One study found that 28 day prescribing reduced the amount of wastage by a third, this frees up money for other medical services.

- **Pharmaceutical companies manufacture a large number of medications in 28 day packs**

This means that you will receive your medication in whole packs, including an information leaflet

- **We have annual medication reviews**

This ensures that medication is monitored and adjusted to your requirements

- **All of your medication will run out at the same time**

You will only need to order your prescription once every four weeks, and you will be able to order all of your regular medicines together

- **Should you require two or more prescribed items a month it may be cheaper to purchase a prepayment certificate**

You can apply for a prepayment certificate by telephoning the issuing office on **0300 330 1341**
